USA Board Members Active in Ministry

WE ARE THANKFUL for our OAC Board of Directors who give oversight to our mission and are involved first hand in the ministry of evangelism with us. One of our board members, Joe Toy, lives in the Philadelphia area and was preaching in the open air at the Olney Transportation Center recently. A young man crossed the street and approached one of Joe's team members, Pastor Joseph. They proceeded to have a lengthy conversation, which is rare at this location due to many busy people on their way to work. This day, however, the Lord brought this Saudi Arabian man across our path who is here in the US to learn English. He inquired as to whether we could get him an Arabic Bible. Pastor Joseph was more than able to handle this request and will make sure this man receives the Bible requested. Who knows, this man may come to Christ and be like the Apostle Paul going back to his home nation to reach others!

Keeping it Simple in the Bahamas

OPEN-AIR WORK is being conducted effectively in the Bahamas to residents of children's homes, prisons and especially schools. At a school on Andros, the largest of the Bahamas islands, a male student, after receiving Christ along with ten others, compelled our staff to stay longer to answer questions and share how to live purely. When a male teacher, who mentors the boys, heard of our simple and clear message presented to his class on the sketchboard, he raised his hand and prayed along with several of his students to receive Jesus. He then loudly asked about the process again on how to be born again. Many teachers expressed an appreciation for this uncomplicated method, and we rejoice at how God has opened these doors.

OAC/USA is trusting the Lord to use this ministry to impact 25 cities in America with the Gospel through open-air evangelism and other ministry by means of strategic establishment of branch ministries by the year 2025.
